

Connect the Dots Evaluation Process

Step 1

Contact us to schedule your child's Evaluation or 15 minute free screening.

We will work with you and your insurance company to determine coverage.

Step 2

The Intake step. You will receive your intake forms after scheduling your child's eval. Please complete these forms prior to the evaluation so you can fully participate in the session.

Step 3

The Eval appointment allows us to learn about your child's background, assess the child's development and observe their behavior.

Step 6

After the Evaluation, the next step is to schedule your child's appointments. Check in with your therapist at the beginning of each session to address concerns as they arise.

Therapists work with the child and family to meet therapy goals. Parents are shown home programs to help the child continue to progress when away from the clinic.

Step 4

At the end of the Evaluation, you will receive a verbal recommendation of next steps. A comprehensive Plan of Care will be provided later.

Step 5

After you leave, your therapist will compile all intake, observation and testing data and create a written assessment and recommended Plan of Care.

This is given to you and your physician unless otherwise specified.
